Arcadia University, Glenside – *Computer Science*

May 2024-December 2024

Montgomery County Community College, Blue Bell

August 2023-March 2024

Rochester Institute of Technology, Rochester

Relevant Projects

Board of Community Assistance Project

The Board of Community Assistance (BCA) is an organization in Upper Merion Township that provides financial support to nonprofits and scholarships to local students pursuing post-secondary education. As part of giving back to the community, I worked on a project to help close the township's "digital divide" by offering free technology help at the Community Center, running a help desk twice a week from May to August, and creating printed guides to address common tech issues so residents could more easily access essential services and stay connected.
